COATED COVERED BLUE -PE148- WG D

Face	One side coated paper is designed for high-end, pressure sensitive label applications. This grade	
	features excellent opacity and high brightness combined with a semi-gloss finish for excellent	

printability.

Adhesive Acrylic based, dye added permanent adhesive for special use. Suitable for numerous applications on

clean, dry and flat surfaces,including slightly rough and curved substrates. It's not suitable for wet applications. Excellent performance during slitting, high speed matrix-stripping and automatic labelling.

Liner White, supercalandered siliconised glassine paper. Specially designed for high speed conversion,

punching and perforation. Transparency allows its use in automatic dispensing system.

Application and use

This product has high opacity and is designed to cover existing printed information. Typical applications are in the correction and rescue of old printed packaging.

Conversion and Printing

Surface is suitable for excellent printing quality by all conventional print technologies and thermal transfer printing.

Packaging

The rolls are sliced according to customer requirements, double sided siliconised papers are put between of rolls. Paperboards are placed at the sides. They are delivered on pallets. Product description labels are fixed on rolls.

Shelf Life and Storage Conditions

Two years when stored away from direct sunlight and heat, in a dark, dry place at a temperature of 22 °C \pm 2 °C with a relative humidity of 50 %, \pm 5%.
